Thermo Scientific TSG Series Small Capacity Refrigerators

Innovative refrigeration solutions for
healthcare and research needs

ThermoFisher
SCIENTIFIC

Designed with you in mind

The Thermo Scientific TSG Series powered by solid state refrigeration technology, has been designed to meet the rigorous and demanding needs of healthcare, research and industrial applications where solid performance is required, in support of breastmilk and medication storage, analyzer kits and reagents, and even cell culture media.

The TSG Series brings cutting edge innovation into refrigeration by incorporating solid state technology in place of traditional refrigeration methods—this means that you are not only able to maintain the most demanding storage conditions but you also can enjoy increased storage capacity meaning you can get more done in less space. All while using less energy and putting almost no heat into the work environment.

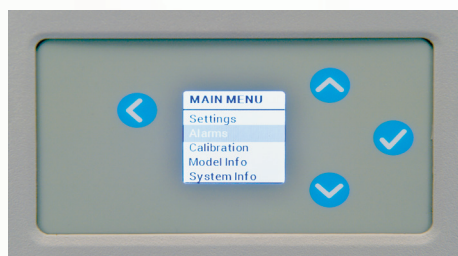

Available in two sizes:

- TSG205 designed for countertop needs
- TSG505 designed for under-counter needs

TSG205
countertop refrigerator

TSG505
under counter
refrigerator

Clear intuitive displays for precise temperature control

Model specific features:

- Remote alarm contacts on the undercounter refrigerator, supporting requirements of research for monitoring
- Datalogging and download capability on countertop models via USB port to support clinical record management requirements
- TSG505 is certified to the NSF/ANSI 456 Vaccine Storage standard
- Universal voltage on the TSG505, allowing for deployment anywhere 110/230v 50/60Hz power is available

Warranty for both products is 5 years on the solid state refrigeration system and 2 years parts and labor

Key features of both models:

- Solid state refrigeration technology
- Whisper quiet operation leading to a more comfortable work environment supporting clinical and healthcare needs
- Increased capacities due to fewer refrigeration components means you can store more in less space
- Energy Star rated performance meaning lower operating costs
- Green refrigerants supporting global initiatives to reduce green house gas emissions
- Full alarm set, including hi/lo temperature, door ajar and power fail to support requirements for medical storage

Product Specifications

Thermo Scientific TSG series small capacity undercounter refrigerator

Cat. No.	Settable Range	Capacity cu. ft. (liters)	Electrical	Plug Type*	Doors	Shelves	Defrost	Sound Level	Certifications	Interior Dimensions: (D x W x H)	Exterior Dimensions: (D x W x H)	Shipping Weight lbs. (kg)
TSG505SA	+2°C to +9°C	5.5 (156)	100 - 240v, 50/60hz	NEMA 5-15	1, Solid	3	Auto	43 dBA	SGS, CE, REACH, RoHS, NSF/ANSI 456	19.5 x 20.5 x 23 in. (495x 520x 584 mm)	23.6 x 26 x 32 in. (600 x 660 x 813 mm)	128 (58)
TSG505GA	+2°C to +9°C	5.5 (156)	100 - 240v, 50/60hz	NEMA 5-15	1, Glass	3	Auto	43 dBA	SGS, CE, REACH, RoHS, NSF/ANSI 456	19.5 x 20.5 x 23 in. (495x 520x 584 mm)	23.6 x 26 x 32 in. (600 x 660 x 813 mm)	145 (66)

*All models can accommodate any plug. Contact your sales rep for help determining the appropriate plug/cord type for your facility.

TSG505G

Designed for the following industries

Diagnostic kits & reagents

Molecular biology

Vaccines & pharmacies

Clinical applications

Industrial testing

TSG505S

*Regional plug types available
