DINAMAP® PRO 300 Vital Signs Monitor

Gold Standard Blood Pressure, SpO2, and Pulse Rate

Most vital signs monitors can take accurate blood pressures on healthy patients. But when patients need closer care, you can trust DINAMAP to consistently perform. GE Healthcare has over 25 years invested in reliable automated blood pressure. The DINAMAP Pro 300 vital signs monitor offers DINAMAP ASAP non-invasive blood pressure and pulse rate using technology that's been clinically-proven to be more accurate than competitive models, especially in hypertensive and hypotensive patients. And we offer you a choice among leading SpO2 technologies. Masimo SET® or Nellcor® OxiMax will minimize false alarms while providing accurate SpO2 values.

Features and Benefits

The DINAMAP Pro 300 monitor enhances productivity with easy to use features and an intuitive menu structure. With a properly-sized BP cuff in place, just press the large gray knob to take a BP reading. It's that easy. All DINAMAP Pro Series Monitors are fully upgradeable so they can grow with your changing needs. With GE Healthcare you get more than a monitor. You get a strategic partner and a total solution.

- Comprehensive -- One monitor for the entire range of patient populations – Neonatal, Pediatric, & Adult
- Versatile – Used in ER, Outpatient Surgery, Endoscopy, GI Lab, Special Procedures, Recovery/PACU, Telemetry, Med-Surg, and Labor & Delivery
- Easy To Use -- Common User Interface with GE monitors throughout the continuum of care, so floating nurses can assess patients with the touch of a button
- DINAMAP NIBP Technology -- Available in GE Solar and Dash monitors
- Six Sigma Quality & Reliability – Built-In Quality Means Accurate Readings
- Connectivity Options

Product Specs

- Gold Standard DINAMAP technology for Blood Pressure
- Choose the most accurate SpO2 available
- Choice of Gold Standard Masimo SET®, or Nellcor® OxiMax™
- Upgradeable to include IVAC® TurboTemp™ – Accurate temperature in about 7 seconds
- Flexible mounting options – Portable or Rolling Stand
- Memory stores up to 100 determinations within a 24 hr. period
- Water ingress protection
- Intra-arterial reference standard for Blood Pressure using the oscillometric technique
- Trim Knob for ease of use
- Integrated Power Supply
- 3 Year Warranty -- Parts & Labor
