## Dispenser for syringes and canulas with simple boxes

**Filling and removal from above.** Made of impact-resistant polystyrene, recyclable and food-safe. Plastic casing, grey-white with transparent boxes. Temperature resistant from -20° C to +80° C.

### Dispenser 2 for syringes

with 2 big boxes.

**Dim.: 600 x 246 x 353 mm (w x d x h)**

Wall model

05016

Spare box

05117

**Dim.: 268 x 220 x 243 mm (w x d x h)**

### Dispenser 3 for syringes

with 3 big boxes.

**Dim.: 600 x 163 x 242 mm (w x d x h)**

Wall model

17208

Spare box

16391

**Dim.: 175 x 140 x 160 mm (w x d x h)**

### Dispenser 4 for syringes

with 4 medium-sized boxes.

**Dim.: 600 x 137 x 207 mm (w x d x h)**

Wall model

17210

Spare box

16392

**Dim.: 128 x 128 x 133 mm (w x d x h)**

### Dispenser 5 for canulas

with 5 small boxes.

**Dim.: 600 x 110 x 164 mm (w x d x h)**

Wall model

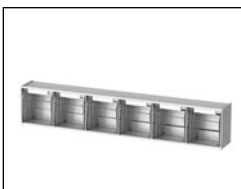

17209

Spare box

16393

**Dim.: 100 x 97 x 108 mm (w x d x h)**

### Dispenser 6 for canulas

with 6 small boxes.

**Dim.: 600 x 75 x 113 mm (w x d x h)**

Wall model

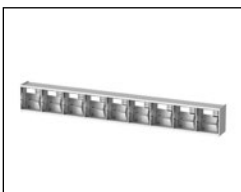

05017

Spare box

05107

**Dim.: 80 x 63 x 70 mm (w x d x h)**

### Dispenser 9 for canulas

with 9 small boxes.

**Dim.: 600 x 51 x 77 mm (w x d x h)**

Wall model

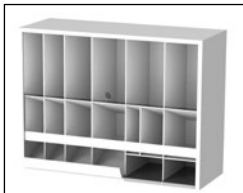

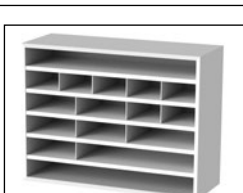

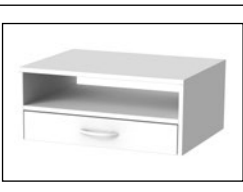

05018

Spare box

05108

**Dim.: 50 x 42 x 46 mm (w x d x h)**

## Dispenser systems

Item	Description	Ref. no.	
<h3>Dispenser systems <b>COMPACT</b> series</h3> <p>Elegant dispensers for syringes, canulas or dressing material with ergonomic refill shafts and hygienic acrylic glass fronts. By uniform dimensions, the individual COMPACT elements can be optimally combined as contiguous wall installations. High quality cases in modern design. Ergonomically optimal arrangement of all components.</p> <p>The <b>COMPACT</b> series consists are all white casing, plastic veneered with dust-proof acrylic glass fronts.  <b>Dim.: 600 x 220 x 450 mm (w x d x h).</b> Delivery includes wall mounting rails and mounting material.</p>			
<b>Injection set "COMPACT"</b>		with practical refill shafts and inclined levels for syringes (3 compartments), canulas (5 compartments), such as 1 compartment for swap roll. Filling and removal from above - <b>first-in/first-out.</b>	<b>04877</b>
<b>Injection set "COMPACT"</b> 4 syringe compartments		with practical refill shafts and inclined levels for syringes (4 compartments), canulas (4 compartments). Filling and removal from above - <b>first-in/first-out.</b>	<b>04879</b>
<b>Dressing dispenser "COMPACT"</b>		with optimal arrangement for all common tube bandages, gauze bandages, plasters, etc. With 2 s/s holders for scissors, etc. One of them with magnetic support surface.	<b>04878</b>
<b>Wall cupboard "COMPACT"</b>		with 1 intermediate compartment and 2 transparent acrylic glass doors.	<b>04876</b>
<b>Organization cabinet "COMPACT"</b>		for forms with various dividers, without acrylic glass cover.	<b>14858</b>
<b>Storage console "COMPACT"</b>		with storage compartment and telescope-guided drawer, incl. screws and dowels. <b>Dim.: 600 x 450 x 280 mm (w x d x h)</b>	<b>04872</b>
<b>Wall desk "COMPACT"</b>		with inclined writing surface with insert for writing utensils. Removable pen holder. Storage compartment, 200 mm clear height. With wall support rail incl. screws and dowels. <b>Dim.: 560 x 450 x 360 mm (w x d x h)</b>	<b>15578</b>

## Medical lamps

Whether for doctor's practices, clinics, nursing homes or cosmetics studios - The high quality lamps are suitable for many application areas. All lamps comply with the latest version of medical norms and are CE tested. EN 60601, EN 60598, EN 12464. The reference numbers do not include mounts, unless mentioned otherwise. Suitable mounts can be found on page 10.

### Halux 35 F ENT back-mirror lamp

- discontinued model -

The practical shapely **halogen back-mirror lamp with frosted glass filter** and spring-balanced articulated arm.

Lamp:	1 x halogen bulb
Operating unit:	electronic transformer
Supply voltage:	230 V/50 Hz
Power supply cable:	1.4 m Euro plug
Luminaire housing:	polyamid (PA)
Weight (net):	1,3 kg
Power consumption:	40 W
Switch:	two-step rocker switch
Norms:	EN 60601-1, EN 60601-2-41
Joint balance:	spring
Special feature:	frosted glass filter
Protection class:	II

16425

## LED examination lamps

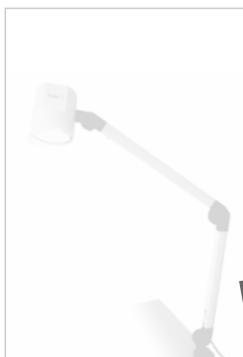

The use of LED technology in medical lamps provides high illumination intensity at low heat release, long service life, high efficiency and excellent quality of light.

**The LEDs have a minimum service life of 30.000 operating hours.**

3 colour shades:	3400 K (warm white)	- for different types of skin examination
	3800 K (neutral white)	- for general examinations
	4300 K (cold light)	- ideal for the recognition of different vessels, for post operative treatment and small interventions

The colour temperature - measured in Kelvin (K) gives information about the light colour.

### Halux® LED F 7-P

The robust **LED examination lamp** meets all important criteria for precise examinations. The spring balanced swivel arm enables quick positioning. The lamp head has a double-wall casing for optimized cooling.

Lamp:	1 x LED module
Light output:	<b>15.000 Lux/0.5 m</b>
Illumination field:	Ø 30 cm / 0.5 m
Colour temperature:	3000 K
Operating unit:	electronic plug-in transformer
Supply voltage:	100 - 240 V; 50/60 Hz
Power supply cable:	2.0 m Euro plug
Luminaire housing:	polyamide (PA)
Weight (net):	approx. 1,7 kg
Power consumption:	19 - 27 VA
Switch:	rocker switch (I/O)
Joint balance:	friction
Norms:	EN 60601-1, EN 60601-2-41
Special feature:	emission angle 10°
Protection class:	II

05522

## Med. lamps

Item	Description	Ref. no.
